

# CORRIGAN DEVELOPMENTS:

## Family-Run and Dover-Based

I moved to Dover in 2012 with my wife Karina and two young boys Harry and Adam. Moving our lives from the West of Ireland and with two young children, a small community was something that Karina and I were both eager to find. Having my brother living in the neighboring town of Westwood meant that his help in finding that was invaluable. When I pondered upon Dover with its small-town charm and amazing schools, I knew this would be a great place for my family to settle in the USA, and in January of 2013, we welcomed our daughter Philippa.

With a background in luxury furniture design and craftsmanship, running a construction and development company that not only focuses on the broader scope of a project but also the finer details of the finished product is the backbone of what we do at Corrigan Developments. We design and build luxury custom homes in the Dover, Weston, Medfield, Needham, and Westwood areas. Over the past ten years, we have built a large number of these homes and met some amazing clients along the way. Living in the town that we primarily do our business in has meant that many of our clients have become lifelong friends of ours. Our kids go to the same schools and participate in many of the same community sports and activities that Dover has to offer. It also means that our team is never out of reach, should someone need help!

We are so fortunate having run a successful large construction business in Europe for many years, that we can confidently introduce some contemporary, European flair to our building projects, which beautifully complements the New England-themed designs that many of our clients' request. We have recently done this with our own new home with great success and promise to do more of this going forward.

The objective of our business has always been to ensure that we are never far from our clients. We pride ourselves that a close business relationship leads to a positive outcome and we are always extremely hands-on with every step of each project from concept to design to implementation and beyond.

We are very proud of and grateful for our team of hard-working, trustworthy, sub-contractors, vendors, and partners that have and continue to help us grow our business. We are also very humbled by all of the kindness and referrals that have generated business for us and only recently began to broaden our focus to marketing and advertising. Our small business has grown purely through

word of mouth and the quality of the homes that we have built. Only in our tenth year have we finally begun to erect signs at some of our new custom home locations and are focusing on some marketing and branding efforts. We are thrilled to be supporting *Dover Living* and look forward to many more years of welcoming new families to our wonderful little town and neighboring communities.
